SIX-MONTHLY INDEXES TO ELECTRICAL & ELECTRONICS ABSTRACTS

Twice a year as part of their subscription to Electrical & Electronics Abstracts subscribers receive cumulative indexes for the periods January-June and July-December. Each index is in two parts—a Subject Index, and an Author Index which comprises personal and corporate author indexes, and indexes to conferences, book titles, and bibliographies. The List of Journals and other Serial Sources abstracted by INSPEC in the particular year is also included with the July-December issue of the Author Index while the supplement to that List is included with the January-June issue. Cumulative indexes for earlier years are also available: for details please see the inside back cover.

Author index

This lists in alphabetical order all authors of papers abstracted in Electrical & Electronics Abstracts in the six-month period covered by the index. The title of the paper is included with the entry for the first-named author. The abstract number of the paper is referred to in the form 4-12345, i.e. abstract 12345 of 1984.

Bibliography index

This index refers to those articles containing a significant list of references or bibliography on the subjects listed. Each entry gives the subject matter and the number of citations.

Book index

This lists the titles of books abstracted in Electrical & Electronics Abstracts in the six months covered by the index. Most books are abstracted as a single monograph but where appropriate individual chapters may also be abstracted. Where this is so the abstract of the book itself is indicated by (*introductory abstract*).

Conference index

This index lists conferences for which published proceedings have been abstracted in the six-month period. Conferences reported in journals are also included in this list. The abstract relating to the conference itself is indicated by (*introductory abstract*). When papers from a conference appear in more than one publication there will be a corresponding number of entries in the index.

Corporate author index

This is an index to those items where a corporate organisation rather than an individual person is the agent primarily responsible for the publication. Such publications typically include reports of industrial firms or of government departments or research establishments.

ELECTRICAL & ELECTRONICS ABSTRACTS is published twice monthly by the Institution of Electrical Engineers in association with the Institute of Electrical and Electronics Engineers Inc. 2nd Class postage paid at Piscataway, N.J. 08854, USA. POSTMASTER: Send address changes to INSPEC/IEEE SERVICE CENTER, 445 Hoes Lane, Piscataway, N.J. 08854.

Errata

Entries 25802, 25893, 25928/9 and 25963 of May 1983, bibliographic reference should read September 1982

Entries 42769/70, 43045, 43137, 44460/1, 44478, 45049/51, 45991, and 46110/1 of September 1983, bibliographic reference should read June 1982

Author Index

This index is a comprehensive listing of authors of articles published in the journal. It is arranged alphabetically by author's name. The index is located on pages 1-100 of the journal.

Bibliography Index

This index is a comprehensive listing of bibliographies of articles published in the journal. It is arranged alphabetically by author's name. The index is located on pages 101-200 of the journal.

Book Index

This index is a comprehensive listing of books published in the journal. It is arranged alphabetically by author's name. The index is located on pages 201-300 of the journal.

Conference Index

This index is a comprehensive listing of conferences published in the journal. It is arranged alphabetically by author's name. The index is located on pages 301-400 of the journal.

Corporate author index

This index is a comprehensive listing of corporate authors published in the journal. It is arranged alphabetically by author's name. The index is located on pages 401-500 of the journal.

This index is a comprehensive listing of all the information contained in the journal. It is arranged alphabetically by author's name. The index is located on pages 501-600 of the journal.
